

PROTECTING CHILDREN

(updated: January 1, 2020)

The iMD Health® service is designed and intended for use by adults, and is not intended for, nor designed to be used by children under the age of eighteen. A parent or guardian, however, may use the iMD Health service on behalf of a minor child, subject to the parent or guardian ensuring that he/she is legally entitled to view the child's information and to make decisions about the collection, use and disclosure of the child's health information. The parent or guardian assumes full responsibility for ensuring that (i) he/she is legally entitled to view the child's information and to make decisions about the collection, use and disclosure of the child's health information, (ii) the authentication information is kept secure, and (iii) that the information submitted is accurate.
